SYNOPSIS

In 1933 New York City during the Great Depression, Annie is an eleven-year-old orphan who dreams of finding her real parents. The broken locket around her neck is the only thing she has left by them. Grace Farrell, the assistant to billionaire Oliver Warbucks, comes to the orphanage, asking for an orphan to spend Christmas at his mansion. Seeing how poorly Miss Hannigan, who runs the orphanage, treats Annie, Grace insists on taking her. Warbucks, who assumed all orphans were boys, at first is not happy with Annie. But he soon he is won over by Annie's warmth and charm and decides to officially adopt her.

Meanwhile, when Miss Hannigan learns of Annie's adoption, she is furious that the orphan she hated so much will suddenly have everything. Her ne'er-do-well bother Rooster and his girlfriend Lily stop by the orphanage looking for a handout. Rooster realizes they can use this situation to their advantage and get Annie back and land on Easy Street.

Warbucks buys Annie a new locket to replace her broken one. When Annie bursts into tears and explains that the locket was left by her parents, Warbucks pledges to find them, no matter what it takes.

Annie appears on Bert Healy's radio show where Warbucks announces he is offering \$50,000 to the couple that can prove they are Annie's parents. However, all of the people who show up to claim Annie are frauds and Annie agrees to accept Warbucks's offer of adoption.

But Hannigan knows the secret of the locket and Rooster and Lily come forward in disguise with forged documents and a fake half of the broken locket. A sad Warbucks requests that Annie be allowed to stay for one more night and be taken away on Christmas morning. The next morning Warbucks receives a visit from President Roosevelt and the Secret Service to tell him that they have finally learned that Annie's real parents are dead.

When Rooster and Lily show up that morning to claim the prize, they are arrested and taken away. Warbucks officially adopts Annie, and they will live happily ever after!
